

Training and Evaluation Outline Report

Task Number: 71-9-4100

Task Title: Coordinate Supply of Weapons, Munitions and Equipment in the Joint Operations Area (Division Echelon and Above [Operational])

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD1 - This training product has been reviewed by the training developers in coordination with the Fort Leavenworth foreign disclosure officer. This training product can be used to instruct international military students from all approved countries without restrictions.

Supporting Reference(s):

Step Number	Reference ID	Reference Name	Required	Primary
	ADRP 4-0	Sustainment	Yes	Yes
	JP 4-0	Doctrine for Logistic Support of Joint Operations	Yes	No
	JP 4-08	Logistic Support of Multinational Operations	Yes	No
	JP 4-09	Distribution Operations	Yes	No

Condition: The command is conducting operations as a Joint Task Force (JTF) or a Combined Joint Task Force (CJTF). The command's headquarters receives liaison, unit, and individual augmentees. The command receives an operations order from higher headquarters. The commander issues guidance on supplying weapons, munitions, and equipment in the joint operations area. The command interfaces with joint, interagency, and unified action partners. The command establishes communications with subordinate and adjacent units, and higher headquarters. The mission command system is operational and processing information. This task should not be trained in MOPP 4.

Standard: The command is conducting operations as a Joint Task Force (JTF) or a Combined Joint Task Force (CJTF). The command's headquarters receives liaison, unit, and individual augmentees. The command receives an operations order from higher headquarters. The commander issues guidance on supplying weapons, munitions, and equipment in the joint operations area. The command interfaces with joint, interagency, and unified action partners. The command establishes communications with subordinate and adjacent units, and higher headquarters. The mission command system is operational and processing information.

Safety Risk: Low

Task Statements

Cue: None

DANGER

Leaders have an inherent responsibility to conduct Composite Risk Management to ensure the safety of all Soldiers and promote mission accomplishment.

WARNING

Composite Risk Management is the Army's primary decision-making process to identify hazards, reduce risk, and prevent both accidental and tactical loss. All soldiers have the responsibility to learn and understand the risks associated with this task.

CAUTION

Identifying hazards and controlling risks across the full spectrum of Army functions, operations, and activities is the responsibility of all Soldiers.

Remarks: None

Notes: None

TASK STEPS

1. The staff develops a concept of logistic support in coordination with joint, interagency, and unified action partners that:

- a. Defines logistic command and control relationships and organizational structure.
- b. Integrates joint, interagency, and unified action partner agencies into the structure and staffing of logistics organizations.
- c. Designates logistic authorities and responsibilities of the command.
- d. Establishes logistic reporting requirements and capabilities of participating Services, agencies, and nations.
- e. Facilitates interoperability of logistics command and control, communications, and information systems.
- f. Develops logistic requirements for Services, agencies, and nations.
- g. Determines the logistic capabilities of participating Services, agencies, and nations.
- h. Identifies requirements for force-wide mutual support arrangements and implementing mechanisms.
- i. Directs use of common logistic planning tools and logistic intelligence databases in the operational area.
- j. Coordinates logistic matters affecting the mission with US non-DOD departments and agencies.
- k. Enforces logistic procedures standardization agreements.
- l. Establishes funding authorities.

2. The staff plans sustainment of weapons, munitions, and equipment during offensive, defensive, and stability operations by:

- a. Calculating demand based on level of intensity.
- b. Determining the scope of the operations.
- c. Recommending the priority of support.
- d. Positioning sustainment units.
- e. Evaluating lines of communication.
- f. Plotting force dispersion.
- g. Establishing a distribution system for sustainment that includes facilities, installations, methods, and procedures to receive, store, maintain, distribute, manage, and control the flow of military materiel.
- h. Emplacing an in-transit visibility capability to track the identity, status, and location of units and non-unit cargo from origin to consignee or destination.

3. The staff executes end-to-end distribution of weapons, munitions, and equipment by:

- a. Identifying logistics requirements.

- b. Managing logistics requirements.
- c. Establishing priority of support.
- d. Assessing lift capabilities.
- e. Tasking lift providers.
- f. Scheduling movements.
- g. Organizing distribution network.
- h. Executing movements.
- i. Monitoring movements.
- j. Reporting movements.
- k. Assessing movements.

(Asterisks indicates a leader performance step.)

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. The staff developed a concept of logistic support in coordination with joint, interagency, and unified action partners.			
2. The staff planned sustainment of weapons, munitions, and equipment during offensive, defensive, and stability operations.			
3. The staff executed end-to-end distribution of weapons, munitions, and equipment.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT. Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination.
